About This Game

By tradition, preparing for the celebration of Christmas, small forest animals chose the most beautiful Christmas tree and dressed it up. But, recently appeared in this part of the forest, large and evil animals intend to steal jewelry and topple the Christmas tree. The animals are brave and determined to protect the Christmas tree, but they are unlikely to succeed without your help, because they lack organization and coherence.

Search in the drifts of small animals and take command over them, taking into account their personal characteristics. In addition, in the snowdrifts you will come across and bad animals, which, when discovered, immediately rush to the Christmas tree. Your task is to drive them away!

Show tactical talent, become a hero of the forest and celebrate Christmas with grateful little animals.
